Strategic Reseller Partnership Announced between APOS and Pro-Ture Consulting Services (PCS), LLC

Kitchener, Ontario, Canada – November 29, 2010 – APOS Systems, a leading provider of extensions to SAP® BusinessObjects™ solutions, announced today that it has expanded its global presence by engaging Pro-Ture Consulting Services (PCS), LLC, headquartered in Rockville, Maryland, as a strategic value-added reseller of APOS solutions.

Pro-Ture will use APOS technologies to help them provide sound solutions to complex business problems for their clients. "We look forward to our new relationship with Pro-Ture. They bring a rich background of SAP BusinessObjects consulting, industry knowledge and understanding of where APOS fits within their key markets" said Howard Bishansky, Director of Channel Sales at APOS. "We are confident that our solutions will provide added value to their core customer base in various industries, such as healthcare".

"We are very excited about the Pro-Ture/APOS relationship. We are both SAP Partners and have similar organizational outlooks and goals. The APOS product offerings complement our business intelligence advisory and consulting services" commented Marc R. Williams, Senior Managing Partner at Pro-Ture. "Historically, the only option was SDK development and/or integrating multiple third party packages, around the areas of archiving, restoring, system monitoring, bursting, Outlook integration, etc. Now, when we sit down with our clients, we have more options to wrap around Pro-Ture service offerings with APOS products in our tool belt".

###

About APOS Systems Inc.

About Pro-Ture Business Intelligence Practice

Pro-Ture Business Intelligence (BI) Practice delivering continual process improvement within client organizations. We are committed to delivering exceptional results by utilizing our proven repeatable processes and methodologies along with our certified consulting staff and the highest levels of consulting professionalism within the industry. Pro-Ture BI Practice focuses on five core competency areas: Strategy, Architecture, Benchmarking, Governance, and Training and Support Solutions.

We do not look at BI as a tool or a project; rather as a journey to help clients organizations mature in its business intelligence usage thus leading to superior performance at all levels across the enterprise. Our Associates are experienced and take an agnostic approach with the top six leading Business Intelligence Platforms as defined by Gartner's Magic Quadrant: IBM, Microsoft, MicroStrategy, Oracle, SAP BusinessObjects, and SAS.

Pro-Ture provides support to our clients based on current project requirements as well as on a project-by-project basis – including on-call, 24/7 help line consulting and staff augmentation support. Pro-Ture believes in creating a true partnership with our clients by not only providing outstanding services, but becoming a true trusted advisor for our clients.
